

SAFETY RECALL!

Strangulation Hazard

Victoria Classics Roman Shades; Sold Exclusively by Target Stores

Exposed inner cords on the back of the shade can be pulled out to form a loop posing a risk of strangulation to children. Also, a child can place his neck on an exposed inner cord between the ring and the fabric and strangle. Exposed operating cords can knot or tangle creating a strangulation loop.

Photos of recalled shades.

Consumers should immediately stop using the recalled window shades and contact Victoria Classics to receive a free repair kit to make the shades cordless.

Call Victoria Classics toll-free between 8 a.m. and 5 p.m. ET daily at:
